

Lake Sawyer Hawks Meeting Minutes

March 26, 2022

Marlow Anderson Airfield, 24041 276th Ave SE, Maple Valley, Washington

General information

Pilots are reminded to please sign in on the time sheets when arriving and leaving the field, time sheets are turned into King County each month for tracking field usage.

Note that there is no club garbage pick-up at the field you are reminded to take your trash home for disposal.

1:00 pm –Randy Ling President called the meeting to order.

General Discussion—Randy Ling reported that the current membership stands at 23 open members with 4 youth, and 1 non-flying member.

Current expenses have been \$465.07 for replacement of charging station batteries, Lake Washington Permit, and field maintenance supplies.

Anticipated expenditures for 2022 are lawn mower maintenance, servicing of porta potty, the museum of flight club event, and the August Club Fun fly event.

Randy reviewed the calendar of events for 2022. Events of note are, the gate combination change in March, (new number will be emailed to members). Other events the August Fly Inn, the October nominations for new officers with elections to be held in November.

Randy indicated that an alternative club community service event under consideration is a Stem teaching event to be held at the field in July replacing club participation in the Maple Valley Kid's Day.

Other events coming up—

AMA Jamboree at Sanderson Field June 3rd, 4TH, 5TH.

Northwest Hobby expo April 9th and 10th.

RC RAMS Warbird meet, July 10, 2022.

Additional News--

Randy noted that a new field use agreement with King County is now in work. The existing King County agreement continues to remain in effect. The new agreement will reflect the new FAA part 107 regulations. Additionally, no new information regarding UAV operation has been released from the FAA.

Safety Minute—

Randy reviewed general field safety.

New Business---

Beginning with the April club meeting the Lake Sawyer Hawks will be returning to a monthly get together meeting, the specific dates and times have not yet been determined.

Show and tell—Randy Ling demonstrated his control surface hinging method where each flat pin hinge is wrapped around with a single layer of tissue paper then inserted in pre-cut slots in the wood surface. A single pin spanning the length of the control surface is inserted along the hinge line to establish the alignment of all hinges. Then ca glue is applied to the tissue which wicks around the hinge gluing the hinges in place.

1:30 pm— Meeting was adjourned.
