

Lake Sawyer Hawks
May 1, 2014
Cedar Grange #534---Maple Valley

7:10-----Meeting Called to Order by Marlow Anderson (president)---there were 14 persons present---all members introduced themselves---the minutes for the April meeting were read by Robert Burks (secretary)---the minutes were approved and accepted as read

7:15-----General Discussion---There will be an Open House fun fly in August which will feature a raffle drawing for a complete ready to fly Cub including all necessary field equipment---a work party will be organized sometime in June to maintain and prepare the field facilities for the August Open House---If you plan to participate in the work party bring your own supply of water because there is no source of water at the field---there will be construction crews working at the field for the next few weeks so fly with caution and remember to have a spotter with you

7:25-----General Discussion---Dennis Sivak reported that the experimentation with the Delta Dart planes had produced a nice flying plane using modified jigs and different gluing procedures---His report on today's float fly indicated about 15 pilots and great weather---Randy Ling (vice president) suggested the club could have a fun fly event in June; including pattern demonstrations, basic flying instructions, and simple contest events---a motion was made and passed which requires an audit of the clubs financial statements quarterly

7:50-----Show and Tell---Thomas Richards brought a scratch built foam jet F104 that was under construction

8:00-----Meeting Adjourned
