

## **Lake Sawyer Hawks Meeting Minutes**

**January 5, 2017**

**Cedar Grange #534, 22531 SE 218<sup>th</sup> St, Maple Valley, WA**

7:04---Meeting was called to order by Randy Ling (president) welcoming all attending to the first club meeting of 2017---there were 29 persons present with all introducing themselves and outlining their specific interests in model aviation.

7:10---Opening Comments---Randy Ling informed members that with the new King County field use agreement in place an annual signed Membership Application form will be needed from all renewing members to be put on file. The form can be download from the club web site, signed, scanned, and returned via E-mailed to Gabe Hanzeli (Club Treasurer).

7:15---General Discussion---Gabe Hanzeli (Club Treasurer) informed members that in relation to the clubs 501(c)(3) organization status the club will be moving toward an all online renewal payment system with PayPal being the preferred method of future membership payment, although checks remain acceptable, cash payment unfortunately will no longer be accepted.

7:25---New members---Several new members were introduced and recognized:

Mike Skaer, Bill Sitlko, Rick Young

7:35---General Discussion Continued---Randy Ling (president) reminded members that newly constructed non-electric aircraft must be tested to ensure the produced noise level is at or below 85db at 25ft. Members should contact Randy to arrange testing. Nominations for all club offices will be held during the February meeting with the elections to be held during the March meeting. It was reported that due to unusual cold weather no float fly has occurred for the past couple weeks.---Randy Ling (president) reviewed a general outline of club events for 2017.

7:45---The January club build project FT Bloody Wonder from FliteTest was outlined with a suggestion that the FlightTest.com web site be reviewed for specifics of the FT Bloody Wonder aircraft construction. Precut Foam parts outline drawing templates were provided for members bringing their own foam sheets to trace detail parts to their sheets.

8:05---Meeting adjourned with several members remaining to continue layout transfer of template details to their foam sheets for later cutting out and assembly.
